

## Croda Alabaster Quality Policy Statement

Croda Alabaster is committed to the efficient manufacture and delivery of high-quality products serving the research, pharmaceutical, and diagnostic industries.

Our obligation to quality is reflected in the following commitments:

### 1. Responsibility and Accountability:

- Ensuring Quality is owned by all personnel at Croda Alabaster.
- Empowering all personnel to contribute to continuous improvement, development, and execution of the Quality Management System (QMS).
- Ensuring management accountability for effective QMS implementation and maintenance.

### 2. Customer-Centric Approach:

- Meeting our customers' needs and expectations for high-quality products in a compliant and efficient manner.
- Ensuring active and timely engagement with customers, regulators, and the community to ensure their satisfaction.

### 3. Current & Effective Quality Management System:

- Ensuring our QMS remains compliant and aligned with applicable industry, customer, and regulatory requirements while enhancing product quality and operational efficiency.
